

LEGO Club

We are excited to get started on another year of LEGO Club! Our names are Mike and Kat Gonzalez and our son Ethan is in 9th grade here at Grand View Christian. Just a little about us, Mike works at Wells Fargo and Kat is a preschool teacher in Urbandale.

As a family we love LEGO and wanted to share this opportunity here at school to encourage students to learn with LEGO using the S.T.E.M. (Science, Technology, Engineering, and Math) skills in a fun and exciting way.

We will meet after school on Thursdays for an hour on the dates listed. We will teach a new building technique each week and then build one large collaborative build together. This year we will make simple machines. We invite families to come see this on the final meeting of the session.

If you are interested in your student participating, please fill out the below portion of this flyer and return it to school via homeroom teacher. Thank you and we look forward to creating and learning with the students!

Coming To:

Grand View Christian School
Students in:
Grades 6th, 7th, and 8th

Session Dates:

-  February 8th
-  February 22nd
-  March 22nd
-  March 29th
